

DENACOL EX-252

Product Information

Chemical Name *****

Cyclohexanol, 4,4'-(1-methylethylidene)bis-, polymer with (chloromethyl)oxirane / CAS No=30583-72-3

Chemical structure(Representative Structure) *****

General Properties *****

General Properties (Representative value)

Items	Representative value
Appearance	Light yellow liquid
Color(APHA)	10
WPE	213
Total Chlorine (%)	4.5
Viscosity (mPa·s, @25)	2,200
Water solubility	insoluble

Typical Application *****

Modifier, adhesion promoter and cross linking agent. Used in paint, adhesives, electronic coatings.

Packaging

DENACOL EX-252 is available in:

200 KG Drum

Handling and Storage / Other information

Follow the handling precautions and recommendations stated in the Material Safety Data Sheet (MSDS)

Storage in tightly sealed original containers under cool and dry conditions inside a warehouse is recommended.

All persons who use, handle, transport or store these materials need to avoid exposure to them. Adverse health effects from skin irritation to more serious effects can result from the improper use of this materials. Use protective gloves, eye protection shields or safety glasses, and skin creams or lotion. Avoid direct prolonged exposure.
